Marie France's
Fat-Burning
FMS

"I was 38 pounds heavier than my first post-pregnancy body. Girl, I was always confident but I didn't love myself. All because of Marie Perle. One of the best dining treatments I've undergone - Fat-Burning FMS. You look so happy. I lost 35 pounds and I couldn't believe it. You wouldn't get this result from anywhere else. I give credit to this treatment. From my first post-pregnancy weight loss to my second, it has helped me get rid of my stomach weight as well as my neck retention. It's effective drugs. Now my body is skinnier. And I love to look at myself in the mirror because my curves are back. People want 'Therapeutic real deal on you. You can fit it again.' Working or not, I highly recommend Marie Perle's Fat-Burning FMS - just look at me and you can see the evidence!"

With Edu, admin turns to tired formula

By Dennis Pineda

THE EDUCATION Secretary Arroyo has turned to a tired formula to deal with the education crisis, critics say.

Arroyo's move to appoint a new education secretary, DepEd Secretary DepEd, is seen as a sign that the administration is running out of ideas to deal with the education crisis.

That royal on official RP visit

MANILA, Nov. 15 (AP) — The first official visit of a British monarch to the Philippines was set for Nov. 16, when Queen Elizabeth II is expected to arrive in Manila for a three-day tour.

The queen, 82, is the first British monarch to visit the Philippines since 1953, when Queen Elizabeth II and Prince Philip, Duke of Edinburgh, visited the country.

The queen's visit is part of a series of royal tours to promote the Commonwealth, an organization of 54 countries, most of which were formerly British colonies.

The queen is expected to arrive in Manila on Nov. 16, where she will be met by President Gloria Macapagal Arroyo. She will then travel to Cebu and Iloilo before returning to Manila on Nov. 18.

The queen's visit is expected to be a success, as it will show the Philippines' strong ties with the Commonwealth and its commitment to democracy and human rights.

Entertainer Pacquiao belts Cotto, then belts out songs

By Frances M. Delmon

MANILA (AP) — Manny Pacquiao, the first Asian boxer to win a world title, celebrated his victory over Oscar De La Hoya by singing the national anthem of the Philippines.

Pacquiao, 30, won the fight by unanimous decision over De La Hoya, 33, in a bout that drew a record crowd of 10,000 fans to the arena.

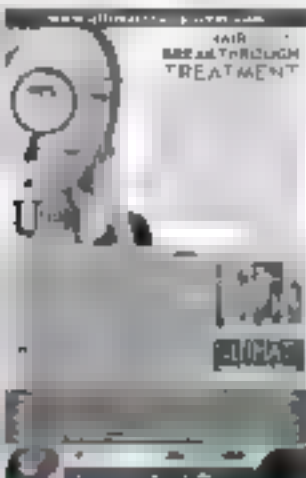

Pacquiao, who is also a congressman, said he was proud to represent his country. He said he would continue to fight for his country and for the people of the Philippines.

Pacquiao's victory over De La Hoya was a significant moment in boxing history. It was the first time an Asian boxer had won a world title. Pacquiao's win was also a victory for the Philippines, as he became the first Filipino to win a world title.

Grotesque mask for Cotto

By Frances M. Delmon

MANILA (AP) — Oscar De La Hoya, the former world champion boxer, wore a grotesque mask during his fight against Manny Pacquiao. The mask was designed to look like a distorted, almost unrecognizable version of De La Hoya's face.

De La Hoya's mask was a controversial move, as it was seen as a way to intimidate Pacquiao. However, Pacquiao remained calm and focused throughout the fight, and ultimately won by unanimous decision.

Figure 1 displays a 10x10 grid of 100 grayscale images illustrating the denoising process for a handwritten digit '4'. The grid is organized into four groups of 25 images each, corresponding to different noise levels (0.05, 0.1, 0.2, 0.3) and different stages of denoising (0, 1, 2, 3). The images show a progression from a noisy digit to a clean digit, with the denoising process becoming more effective as the noise level increases and the denoising stage progresses.

Samsung's one-touch button affair

By Clayton Phillips
JAN 2004

Perhaps the most significant development in the mobile phone market in recent years has been the introduction of the "one-touch" button. This feature allows users to make calls with a single touch of a button, eliminating the need to dial a number. Samsung has been a pioneer in this technology, and its one-touch phones have gained widespread popularity. The one-touch button is a small, rectangular button located on the side of the phone. When pressed, it initiates a call to a pre-programmed number. This feature is particularly useful for users who are unable to dial numbers or who want to make calls quickly and easily. Samsung's one-touch phones are available in a variety of colors and styles, and they are priced competitively. If you are looking for a mobile phone that is easy to use and reliable, Samsung's one-touch phone is a great choice.

Every Filipino can be a hero

HEROISM IS NOT just about doing big, noble deeds. It is also about being an everyday hero. It is about being a hero in the small things.

In the Philippines, we have many heroes. Some are famous, some are not. Some are from the past, some are from the present. Some are from the Philippines, some are from other countries. Some are from the Philippines, some are from other countries.

But what is a hero? A hero is someone who does something brave or noble. A hero is someone who does something that is good for others. A hero is someone who does something that is good for the world.

There are many heroes in the Philippines. There are many heroes in the world. There are many heroes in every country. There are many heroes in every generation.

But what is a hero? A hero is someone who does something brave or noble. A hero is someone who does something that is good for others. A hero is someone who does something that is good for the world.
